

The handy and low-noise
CC Euro Trolley...

...displays your products
at their best.

CC Euro Trolley

The display-friendly, low-noise pot plant trolley

Perfect display unit

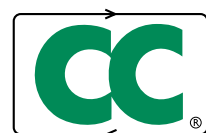

The CC Euro Trolley is a stylish rolling unit developed primarily for the in-store display of flowers and plants. The neutral design shows off your products in the best possible way. With its low weight, and low-noise swivel wheels, the CC Euro Trolley provides a convenient way to transport your goods from producer to store with minimum effort and noise.

An ergonomically friendly flower and pot plant trolley

The trolley consists of a plastic deck with a steel frame, removable steel corner posts and adjustable shelving. The external dimensions correspond to a ½ Euro Pallet - a manageable size popular with many supply chains – and the shelves are designed to fit two pot plant trays side by side.

RFID

The deck has two RFID labels with barcodes to facilitate registration and Track & Trace in product flows from producer to retailer.

Making your products move

CC Euro Trolley

The display-friendly, low-noise pot plant trolley

What you get with the CC Euro Trolley:

- 1 Developed for the distribution and in-store display of pot plants** — but also suitable for a range of other goods. The neutral design supports your products in the best possible way.
- 2 Low noise wheels.** The CC Euro Trolley has been fitted with noise-reduced rubber wheels.
- 3 Maximised handling width between wheels.** With a handling width of 595 mm between the wheels on the long side, the CC Euro Trolley can accommodate a wide a range of automatic pallet lifters.
- 4 Strong and durable.** The CC Euro Trolley has steel reinforcements under the deck to provide a strong and stable product with low repair and maintenance costs. It can carry an evenly distributed load of 400 kg. The trolley can withstand temperatures from -30°C to +50°C and the steel parts have been electroplated and sealed to avoid rust.
- 5 Easy to handle.** The low-weight plastic deck and swivel wheels make the CC Euro Trolley ergonomically friendly.
- 6 European standard dimensions.** The external footprint corresponds to a ½ Euro Pallet, and each shelf is designed to carry two pot plant trays side by side.
- 7 RFID traceability and barcodes.** The deck has two passive RFID labels with barcodes to facilitate registration and Track & Trace in product flows from producer to retailer.
- 8 Environmentally friendly.** All parts can be recycled.
