## 1. Balances & total transactions

### LogLink Customer Balance Statement

Customer ID: 10000000000000000000  
Customer Name: Customer (Name) (E)

Balance Overview

RTI Name	Balance 14-05-2018	Total Transactions	Balance 21-05-2018
CC Dolly	-7,713	-1,247	-8,960

Start Balance, total transactions and End Balance are shown for this period.

**A:** The start balance of this period. This quantity will align with the end balance quantity of **last** period.

**B:** the transactions in the period between the start balance and end balance. In the example above the start balance plus the total transactions lead to end balance ( $-7.713 - 1.247 = -8.960$ )

**C:** The end balance of this period. This end balance will match with the starting balance of **next** period.

## 2. Transactions per direction

Transaction Totals	Inbound	Outbound	Backdated	Total
RTI Name				
CC Dolly	-4,041	2,478	316	-1,247

**D:** Total quantity of transactions reflecting incoming items.

**E:** Total quantity of transactions reflecting outgoing items.

**F:** Backdated transactions; the transactions registered in our system in this period, but having a transaction date before the start balance.

**G:** Total of D, E and F. Together this matches with the Total Transactions quantity on chapter 1.
