

## NEW FEATURES RELATED THE CC4SCANNER APP

- Your Scan data is now available via REST API or SOAP web services.

REST API:

[https://containercentralen.outsystemsenterprise.com/Customerscanning\\_IS/rest/CCCustomerScanning/#!/CCCustomerScanning/GetScanningData](https://containercentralen.outsystemsenterprise.com/Customerscanning_IS/rest/CCCustomerScanning/#!/CCCustomerScanning/GetScanningData)

SOAP:

[https://containercentralen.outsystemsenterprise.com/Customerscanning\\_IS/CCCustomerScanning.asmx](https://containercentralen.outsystemsenterprise.com/Customerscanning_IS/CCCustomerScanning.asmx)

- Register directly in the scanner those tags which cannot be scanned or that are missing from the container to be able to compare results with CMR of Transporter.
